# WEATHER

## WEATHER SYNOPSIS BY REGION:

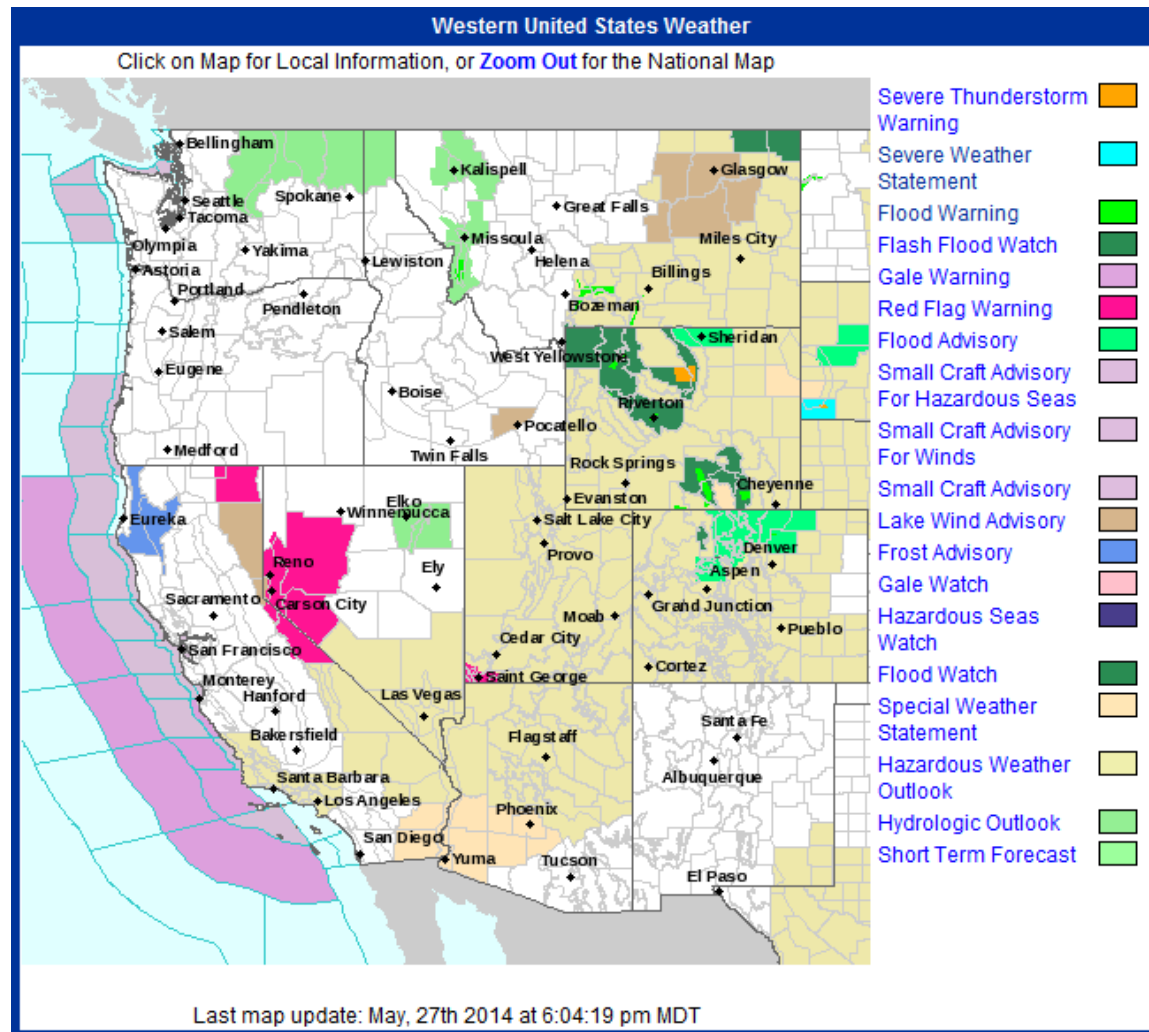

### **NORTHERN CALIFORNIA:**

A strong low pressure trough over the Pacific Northwest and Northern California will continue the breezy and mild conditions through early Thursday. Winds will be strongest out of the SW-W in Northeastern California, with gusts reaching 40 mph in some locations. Elsewhere, winds will gust as high as 30 mph this afternoon. Humidity will drop to 13-20% in most inland areas. A few showers are possible near the Oregon state line tonight as the low pressure moves toward the Oregon Coast. On Wednesday the strongest winds will be out of the NW-N in and around the Sacramento Valley, where gusts may reach 30-35 mph. These winds will continue through early Thursday. A low pressure trough will remain over and just offshore of the North Operations area Thursday and Friday. Winds will be light, but conditions will become unstable, leading to afternoon buildups. There is a remote chance of showers or thunderstorms over the northwestern mountains Thursday, but on Friday the chance will increase and spread to all of the higher terrain of the North Operations area.

**SOUTHERN CALIFORNIA:** Winds will remain light. The second half of the week will see a cooling trend occur as the high pressure ridge weakens and retreats westward. By Friday, temperatures will be back to near normal with widespread marine layer stratus returning to the valleys and lower foothills. Further cooling will occur Saturday and Sunday as a trough deepens over the central part of the state. Appropriately, this will kick off a typical “June Gloom” pattern this weekend. Temperatures will be several degrees below normal with highs in the 60s along the coast to the upper 70s to lower 80s in the warmest inland valleys. There is a remote chance for some showers and thunderstorms over the Sierras north of Yosemite this weekend, but precipitation from this trough will remain scant and mostly north of the district. Afternoon breezes to 25 mph can be expected Friday through the weekend in and near the deserts.

## **“Fix 50” Information**

### **Major Construction U.S. Highway 50, Sacramento, Sacramento County**

- Major construction is scheduled on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.

### **2014 Project Dates**

### **Roadway Construction Timing:**

### **Westbound Highway 50: May 27 – June 25**

#### **Phase 1: May 27 - Jun 10**

- The 3 inside lanes will be closed. 2 - 3 outside lanes will remain open.
- No ramps will be closed during the first westbound phase. However, the connector ramp from Hwy 99 North to US-50 West will merge down to one lane to increase safety for travelers merging onto US-50 West into the construction area.

#### **Phase 2: June 11 - June 25**

- 2-3 outside lanes will be closed. Inside 3 lanes will remain open.
- Ramp closures:
  - Connector ramp from westbound Business 80 (Capitol City Freeway) to US-50 West. Hornet Drive near Sacramento State is the alternate route.
  - Reduced lanes on connector ramp from Hwy 99 North to US-50 West (will merge down to one lane).
  - 16th Street off-ramp.

### **Major Construction U.S. Highway 50, Sacramento, Sacramento County**

#### **Alternate Routes:**

#### **During work in the WESTBOUND direction (May 27 – June 25):**

##### **If traveling from Rancho Cordova/Folsom to Downtown Sacramento:**

- Use US-50 West to Business-80 North to “N” or “H” Street off-ramps
- Do not stay on US-50 West after Business-80 interchange

##### **If traveling from Elk Grove/Galt to Downtown Sacramento:**

- Use I-5 North to “J” Street off ramp
- Do not take Freeway-99 North to US-50 Westbound

##### **If traveling from Rancho Cordova/Folsom to Natomas/Davis:**

- Use US-50 West to Business-80 North to Watt Ave North, to I-80 West.
- Do not use US-50 West to Davis or US-50 West to I-5 North to Natomas.

##### **If traveling on Business 80 West during Phase 2 (Closed connector ramp from Business-80 West to US-50 West):**

- Get on US 50-E and use Hornet Drive (Howe/Power Inn exit) to turn around onto US-50 West
- For WB Business 80 to downtown, use Highway 160

\*\*\*Motorists traveling to the Lake Tahoe area can avoid the project area congestion by taking I-80 E

# **CAL OES ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

**\*\*As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

## Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.
